## In2Pay iCaisse4X NFC

Get coupons, pay for groceries, share your latest recipes & charge your iPhone all from one case!

Smart, powerful and multi-faceted. The iCaisse4X NFC is the ultimate case to enable your customers. Featuring card emulation, reader/writer mode, and peer-to-peer mode all while charging the iPhone.

### Product Overview

The In2Pay® iCaisse4X NFC is a full Near Field Communication (NFC) system that enables contactless transactions with the iPhone. The iCaisse4X NFC works with the with the GSM and CDMA versions of iPhone 4S and iPhone 4.

Combined with the In2Pay® microSD, the powerful and multi-functional case allows iPhone users to fully utilize NFC features such as card emulation mode, reader/writer mode, and peer-to-peer mode while offering a removable extended battery providing several more hours of use before plugging in for charging.

The iCaisse 4X NFC comes in several fun case band colors such as red, orange, green, purple, silver and clear. Since the iCaisse is NFC compatible, you may use it anywhere there is an NFC contactless terminal.

### Antenna

The iCaisse is compatible with the In2Pay® microSD V2.x or later. The microSD connects to an external antenna embedded within the iCaisse.
